	- The MAILING DATE of this communication app				
Period fo	r Reply				
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). - Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).					
Status 1)⊠	Responsive to communication(s) filed on 02 i	May 200 <u>1</u> .			
2a)□	•	nis action is non-final.	•		
3)	Since this application is in condition for allowed	ance except for formal matters, p	prosecution as to the merits is		
closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213. Disposition of Claims					
	Claim(s) $1-25$ is/are pending in the application		•		
4a) Of the above claim(s) is/are withdrawn from consideration.					
5) Claim(s) is/are allowed.					
6)	Claim(s) is/are rejected.				
	Claim(s) is/are objected to.				
	Claim(s) <u>1-25</u> are subject to restriction and/or	election requirement.			
• •	ion Papers		-		
9) The specification is objected to by the Examiner.					
10) The drawing(s) filed on is/are: a) accepted or b) objected to by the Examiner. Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).					
4.0.	Applicant may not request that any objection to tr	is: a) approved h) disapp	roved by the Examiner.		
11) The proposed drawing correction filed on is: a) approved b) disapproved by the Examiner.					
If approved, corrected drawings are required in reply to this Office action.					
12) The oath or declaration is objected to by the Examiner.					
Priority under 35 U.S.C. §§ 119 and 120 13) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).					
a) ☐ All b) ☐ Some * c) ☐ None of: 1.☐ Certified copies of the priority documents have been received.					
The same that the state of the same at the base been received in Application No.					
3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).					
* See the attached detailed Office action for a list of the certified copies not received.					
14) Acknowledgment is made of a claim for domestic priority under 35 U.S.C. § 119(e) (to a provisional application).					
 a) ☐ The translation of the foreign language provisional application has been received. 15)☐ Acknowledgment is made of a claim for domestic priority under 35 U.S.C. §§ 120 and/or 121.

U.S. Patent and Trademark Office PTO-326 (Rev. 04-01) Application/Control Number: 09/720,469

Art Unit: 1642

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

- a. Group I, claim(s) 1-14 and 25, drawn to a tumor antigen peptide derived from cyclophilin, which binds an HLA antigen, a pharmaceutical composition, and a diagnostic agent.
- b. Group II, claim(s) 15, drawn to an antibody that binds to the tumor antigen peptide of claim 1 or 2.
- c. Group III, claim(s) 16-19, drawn to an antigen presenting cell capable of having an HLA antigen- tumor antigen peptide complex on its surface.
- d. Group IV, claim(s) 20-23, drawn to a cytotoxic T lymphocyte that recognizes a HLA antigen- tumor antigen peptide complex.
- e. Group V, claim(s) 24, drawn to a method of identifying tumor antigen proteins.
- A. In the event applicant elects Group I, claims 1-14 and 25, applicant is required to elect a single species of tumor antigen peptide, comprising:

SEQ ID NO: 1-36 and 41-43

The species are patentably distinct based on structural and functional differences and mode of action.

2. The inventions have been found by the examiner to have no special technical feature that defined a contribution over the prior art because Shichijo, et al, (1998) teach a gene encoding antigenic peptides recognized by histocompatibility leukocyte antigens (HLA). Since the inventions do not contribute a special technical feature when viewed over the prior art, they do not have a single inventive concept and lack unity of invention.

Application/Control Number: 09/720,469

Art Unit: 1642

3. The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The invention of Group I is drawn to tumor antigen peptide. The invention of Group II is drawn to an antibody that binds to a tumor antigen peptide. The invention of Group III is drawn to antigen presenting cell with a HLA antigen-tumor antigen peptide complex. The invention of Group IV is drawn to a cytotoxic T lymphocyte that recognizes a HLA antigen-tumor antigen peptide complex. The invention of Group V is drawn to a method of identifying a tumor antigen protein.

- 4. The Inventions of Groups I-IV (products) and V (methods) are related as products and processes of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the products of Groups I-IV may be used for a number of different processes that are very much unrelated, which may not only be used in the method of Group V. For example, the peptide of Group I may be used to make an antibody, the antibody of Group II may be used for immunopurification, and the cytotoxic T lymphocyte may be used to treat a disease.
- 5. The products of Groups I-IV are drawn to structurally and functionally different molecules with different immunological properties, each invention requires different reagents and steps to make and characterize it.
- 6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
- 7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Application/Control Number: 09/720,469

Art Unit: 1642

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Natalie A. Davis whose telephone number is 703-308-6410. The examiner can normally be reached on M-F 8-5:30 (every other Friday off).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Anthony Caputa can be reached on 703-308-3995. The fax phone numbers for the organization where this application or proceeding is assigned are 703-308-4315 for regular communications and 703-308-4556 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-0196.
